When times are tough, wishing, imagining, and dreaming about the future can be like having a superpower! Just like superheroes use their powers to overcome challenges, you can use your imagination to picture a brighter and happier future. Dreaming big helps you stay hopeful and gives you the strength to keep going, even when things are hard.

Remember, every great invention, adventure, and story started with a wish. So, keep dreaming, keep wishing, and let your imagination soar, because your wishes can light up the darkest days and lead you to amazing places!

And guess what? You can be a WishMaker too! By helping others' wishes come true, you can spread joy and make the world a better place. When you help someone else experience a wish, you become a hero in their story!
